THE MADONNA COMPANY

In the beginning...

The company was founded in 1990 by Ing. Hisham Watte and started as a network of small shops in Karlovy Vary. It specialized in sale of Bohemian Crystal and cut glass from prestigious Czech manufacturers. The huge demand for crystal chandeliers later led to the foundation of our own chandeliers production in the Crystal Valley - which is a region in the Czech Republic that gave birth to the world's most renowned Bohemia Crystal manufacturers. The name chosen for the new chandeliers production was "Madonna Chandeliers".

Today...

Our company has now 28 years of experience and tradition in manufacturing and designing chandeliers. We have a broad network of partners that display and sell our chandeliers throughout Czech Republic and abroad. To this day, we have brought a warm light into thousands of homes and, with dedication, will continue to do so.

CRYSTAL DESIGNS & OPTIONS

Our chandeliers can be individualized to your particular taste. While many chandeliers include the option to change the number of arms and lamps, the true options come with the choice of different crystal styles from our collection.

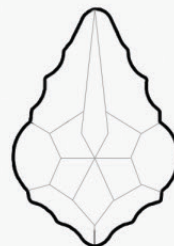

Every chandelier can be fitted with any kind of crystal decoration which we offer and can even be trimmed with two different crystal styles. Using a range of various crystals to individualize your chandelier can lift up the design for your needs.

COLOUR OPTIONS

You can also pick any crystal colour that you would require to be fitted on your chandelier to match the chandeliers surroundings. Change in colour of the crystals comes with additional cost but can make the chandelier truly yours.

DESIGN & TECHNICAL INFORMATION

As yellow and amber leaves fall in November, so does our Amber Fall resemble this gorgeous season. The Amber Fall features a quiet atypical design that has the lamps situated in an opposite downward direction. The arms are decorated with Czech crystals in a shape of leaves and the large amber crystals have inscribed details to make them seem like leaves. This chandelier is considered a large sized thanks to its wide arms but is also low making it ideal for low ceiling situations.
